

The Internet

Label the diagram using the words in the boxes below

ISP (Internet Service Provider)	Internet	My computer	DNS (Domain Name Server)
---------------------------------	----------	-------------	--------------------------

Join the names to the correct description

Host	A worldwide network of computers
Cloud	Where you can store files on a company's server rather than your own computer or device
Internet	A company that allows you to rent space on their servers so you can publish your own website
